The main business of Alpha Osta – rendering of stevedoring services for transshipment of mineral fertilizers in Riga Seaport. Presently the terminal's infrastructure includes five berths of the total length 565 meters and depth 13,5 meters, making it possible to accept for processing large-capacity ships like Panamax. To ensure covered storage of cargoes, the company of-

fers 6 domed warehouses of capacity to 20 000 tons each. The Igor Sokol Member of the Board warehouse complex of total capacity 120 000 tons makes it possible to store various types of cargoes separately, efficiently preserving their properties and features. The cargo turnover of the company is about 2 million tons per year. The Alpha Osta staff consists of 138 persons, in the
